Advanced Clinical Experiences

During the fourth semester the students will have the opportunity to have an advanced clinical rotation. The advanced clinical rotation will be supervised by Dr Seung Gwon. The advanced clinical rotation will encompass experiences in telemetry recognition, preoperative, perioperative and postoperative care. The time will be spent developing and refining skills as well as critical thinking. The clinical experience will consist of two (2) consecutive weeks of clinical or as arranged by Dr Gwon.

Student’s interested in this experience need to apply for the available placement. Applications must be returned by the 10th week of school to be considered. Mr. Fitzsimmons will collect all applications and keep students informed of the applications process. The application and clinical comments from their fourth semester clinical instructors will be reviewed by Dr Gwon and Mr. Fitzsimmons.

The selection process will be completed by the 12th week of school (May 11, 2010). The clinical experience will take place in the 13th and 14th weeks of the academic semester May 19, 20, 26, 27, 2010).
