Title of Your Personal Development Plan

Name Initial Last Name

Imperial Valley College

Date
Title of Your Paper

Your paper must be typed and limited to one page, not including the cover page. The paper should be thorough, organized, and utilize correct grammar and sentence structure.

The purpose of the paper is to ensure you have created a personal development plan for your pending career. You must consider how you will prepare for the NCLEX exam, job searching, continuing education units, career advancement, and life-long learning as a nurse. Most importantly, it should be a realistic plan for your personal development, not a plan to appease the instructor.

Please use this format to guide you in the format for the paper. If you need further guidance, I have included a website that may provide the information.
