DISCUSSION AND INFORMATION ITEMS

1. Review of the purpose and function of the College Council (Attachment A - Standing Rules of the College Council) – Daniel Gilison

Chair Gilison presented as follows:

- Highlighted the Standing Rules of the College Council, specifically the purpose, function, general concept and philosophy:
 - Main philosophy is shared governance. Membership consists of representatives from every single area on campus: faculty, students, classified, CMCA, and administration.
 - The College Council is the final recommending body on non-academic matters that go to the President and Board of Trustees.
 - One of the purposes of the College Council is to deliberate on and recommend to the President all action items referred by the the College Council subcommittees.
 - Stated the College Council has the authority to make recommendations, suggestions and bring things to the President's attention when it feels it is necessary to do so.
 - Topics not within the College Council purview include personnel issues, student discipline and union issues.
- Stated the Standing Rules would need to be revised this semester. He asked that the members review the Rules for future discussion and action.

Lengthy discussion followed regarding subcommittee action items that are presented to the College Council.

2. Subcommittee reporting – Daniel Gilison

Chair Gilison presented as follows:

- Highlighted the College Council subcommittees and chairs of each committee.
- Stated the committee chairs would be responsible for giving reports at each College Council meeting.
- Would be sending an email to the subcommittee chairs asking that any action items they carry out be presented to the College Council; that they submit their minutes to the College Council; that they submit their meeting schedules to the College Council; and that they submit their current membership to the College Council.

President Jaime stated faculty has been requested to submit committee assignments as a contractual obligation. He stated a similar request would be sent to the rest of the staff shortly.

3. Accreditation – Daniel Gilison/Kathy Berry

Chair Gilison restated the accreditation warning status. He encouraged members of the College Council to help out however they can in preparing the report due to the ACCJC on March 15, 2014.

VP Berry presented as follows:

- Restated that on July 8th, IVC received a letter from the ACCJC, placing the college on warning status.
- Highlighted the three recommendations given by the ACCJC:
 - Recommendation 1 – Planning
 - Recommendation 7 – Student Learning Outcomes
 - Recommendation 8 – Financial Health
- Stated a second letter was received from the ACCJC on August 8th. She explained that every college under the ACCJC is required to complete an annual financial report. The ACCJC reviews the report and makes recommendations based strictly on this financial report. There are three levels assigned to the financial report:
 - Category N means normal – not subject to any additional monitoring.
 - Category M means moderate risk – will be more closely monitored in subsequent reporting years to assess whether the financial conditions improve or deteriorate within the college.
 - Category R means referred – undergoes a more comprehensive analysis of their financial condition by ACCJC financial reviewers. These are additional reviewers they bring in to review the financial information – they may request information, they may not, and they make a finding to the ACCJC.
 - The ACCJC acted to put IVC under Category R, which means that they will be seeing a more in depth analysis by the financial reviewers, the financial reviewers will analyze the college, related documents and reports that have been submitted to the commission.
 - The reasons for the R rating include the following:
 - Low contribution toward the OPED liability
 - Significant decline in cash balance
 - Excessive decline in enrollment
 - Significant leadership changes
 - The FCMAT report
- Stated the college is required to complete a follow-up report by March 15, 2014. She stated the report would have to be completed before we leave for winter break. This is due to the long winter break and faculty not returning to IVC until January 21st per contract. The document would then go through the participatory governance process in February:
 - Approved by the CART Committee
 - Sent to the College Council and Academic Senate
 - Sent to the Executive Council
 - Final certification by the Board of Trustees
 - Published and copies submitted to the ACCJC by March 10th.
- Stated that the College Council subcommittees must follow the planning process and report out through the College Council.

Dean McNeece expressed the urgent need to maintain our planning objectives. He recommended that two people from CART, START, EMPC, executive council and curriculum, look at the strategic plan, review the recommendations, and begin to link the various goals. He appealed to President Jaime to make that a priority.

- VP Berry informed everyone regarding the accreditation status of San Francisco City College, including the recent complaint filed with the federal government by the American Federation of Teachers against the ACCJC. The federal government stated the commission needed to be clearer, and not so vague in defining recommendations.
- VP Berry restated that evidence is crucial and that the Commission would be looking for this evidence in the form of committee minutes. She stated minutes must detail the outcome and action taken at each meeting. She commented that all committee minutes should be identical to those of the College Council.

4. Strategic Planning On-Line (SPOL) – Kathy Berry

VP Berry presented as follows:

- Defined SPOL as strategic planning online. The system was purchased with ATLAS money; after the first year, the district will pick up the maintenance costs.

 - Manages student learning outcomes
 - Creates 3-year budget projections
 - Program review data will be built into the system
 - Ability to link all the data needed to create self-study for accreditation purposes.
- A team of individuals selected by President Jaime are currently going through training which will end in October.
- Campus-wide training will begin in October for full implementation in the spring.

VP Lau stressed the importance of entering accurate data into the system. He stated without accurate data, the system would be of no value.

5. Community Visioning – Bill Gay

PRO Consultant Bill Gay presented as follows:

- This year would begin the strategic planning process for the 2014-2015 Strategic Plan.
- Visioning process entails going out to the 11 communities we serve, talking and listening to every one of the constituencies regarding their expectations of IVC.
- The data collected is brought back to the campus and put through the various shared governance groups, and becomes the element of the strategic plan.
- Seeking volunteers for the community focus groups which will include 3 staff members: facilitator, flip chart notetaker, as well as a computer notetaker. If needed, training would be provided.
- Passed out the Visioning 2013 Schedule. The cities, dates, and times are firm; however the specific locations are tentative.

- A general public and student survey has also been prepared and will be going out through various databases.
- The Community Visioning meetings would be advertised through the traditional media, social media, as well as flyers placed at post offices.

Concurrently enrolled high school students may enroll in no more than 11 credit units per semester and no more than 6 credit units per summer session as defined in Administrative Procedure 5011. Students who have extenuating circumstances and who need to enroll in more than the allowed limit must meet with a counselor to discuss their options.
- B. Enrollment in courses and programs may be limited to students meeting properly established prerequisites and co-requisites. [See BP and AP 4260 - Prerequisites and Co-requisites]
- C. Enrollment may also be limited due to the following legal or practical considerations:
 - 1. Health-and-safety considerations
 - 2. Facility limitations
 - 3. Faculty workload
 - 4. Availability of qualified instructors
 - 5. Funding limitations
 - 6. Regional planning constraints
 - 7. Legal requirements imposed by statutes, regulations, or contracts.
- D. With respect to students on probation or subject to dismissal, the college may limit enrollment to a total number of units or to selected courses for students who have appealed and been granted permission to set aside their dismissal as determined by the Admissions, Registration, and Petition (ARP) Committee.

The District will provide priority registration for students who enroll in a community college for the purpose of degree or certificate attainment, transfer to a four-year college or university, or career advancement.

Students will have the following registration priority, in the order of priority listed below:

1. (Category 1) - Students who have completed orientation, assessment, and developed student education plans and are eligible as a member of the armed forces or a veteran pursuant to Education Code section 66025.8 or as a foster youth or former foster youth pursuant to Education Code section 66025.9;
2. (Category 2) - Students who have completed orientation, assessment, and developed student education plans and are eligible and receiving services through Disabled Student Programs and Services or Extended Opportunity Programs and Services;
3. (Category 3) - Students who are continuing students, not on academic or progress probation for two consecutive terms as defined in these policies and procedures, and first time students who have completed orientation, assessment, and developed student education plans.

These registration priorities apply to courses offered during summer or intersessions.

Registration priority specified above shall be lost at the first registration opportunity after a student:

- Is placed on academic or progress probation or any combination thereof as defined in Board Policy and Administrative Procedure 4250 for two consecutive terms; or
- Has earned ninety (90) or more degree-applicable semester or quarter equivalent units at the district.

For purposes of this section a unit is earned when a student receives a grade of A, B, C, D or P as defined in Board Policy and Administrative Procedure 4230. This 90-unit limit does not include units for non-degree applicable English as a Second Language (ESL) or basic skills courses, or to students enrolled in high unit majors or programs as defined by the Chief Instructional Officer (CIO).

The District shall notify students who are placed on academic or progress probation, of the potential for loss of enrollment priority. The district shall notify the student that a second consecutive term on academic or progress probation will result in the loss of priority registration as long as the student remains on probation.

The District shall notify students who have earned more than 67 units, that enrollment priority will be lost when the student reaches the unit limit of 90.

Appeal of Loss of Enrollment Priority

Students may appeal the loss of enrollment priority when the loss is due to extenuating circumstances. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student, or when a student with a disability applied for, but did not receive a reasonable accommodation in a timely

manner. The Chief Student Services Officer (CSSO) or his/her designee will determine the appeal in his/her sole discretion.

The District will ensure that these procedures are reflected in course catalogs and that all students have appropriate and timely notice of the requirements of this procedure.
