

## Basic Skills Funds Request

Name of person or person requesting funds: Cynthia J. Spence Ed.D, Basic Skills Coordinator and Jill Nelipovich, Math Department Chair

Proposal: Five attendees to the California Acceleration Project – AB 705 Implementation Workshop on September 14 – September 15, 2018 in Los Angeles, CA.

1. Write a one or two paragraph summary (approximately 200 words) of your proposal and how it will contribute to increased student success in Basic Skills classes at Imperial Valley College. Basic Skills classes are ESL, Math below Math 91, and English below English 110.

Imperial Valley Math faculty are currently writing curriculum and making program adjustments to become AB705 compliant and four faculty members are asking to attend this conference to gain information from colleges who have already made, or who are also making, changes to their math programs. As the Basic Skills Coordinator, I can also obtain additional information regarding how the Basic Skills grant can support the math faculty in their endeavors. By Fall 2019, virtually all community college students will have a right to enroll in transfer-level English and math, and colleges will need to replace traditional remedial prerequisites with concurrent support at the transfer-level. This event will help IVC develop new concurrent support for transfer-level math. In math, there will be a second day of activity focused on developing concurrent support for Business and STEM math pathways. Participants will learn about successful models from across California and receive nuts and bolts implementation guidance.

2. Include a timeline or flow chart that indicates approximately when activities will occur.

Fri, Sep 14, 2018, 9:30 AM – Sat, Sep 15, 2018, 4:00 PM PDT  
Four Points By Sheraton Los Angeles  
9750 Airport Blvd Los Angeles, CA 90045

3. Include a budget, table, or chart that includes the items/materials/resources needed and approximate costs of each. This may include money for hourly wages.

Registration Fees	5 X 175.00	\$875.00
Hotel	5 X 150.00	\$750.00
RT Mileage from Imperial, CA to Los Angeles	.548 X 468 RT X 5	\$1,282.32
Breakfast	5 X \$7.00 X 2 days	\$70.00
Dinner	5 X \$18.00	\$90.00
Total		\$3067.32

4. Describe the positive outcomes and proposed means to assess them.

The goal is to support the math department as they move forward with meeting the AB705 guidelines by Fall 2019. The math department's current goal is to submit new course outlines or course revisions to IVC's curriculum committee by this October.

5. If applicable, provide baseline data for positive outcomes. For example, if you are using embedded tutors in the classroom, provide success rates of instructor(s) in the course prior to using embedded tutors.

Not applicable
