Title V Cooperative Grant
Dr. Lianna Zhao reported the following:

Computer Science Program
- CS Program Development Team has worked on course revisions in Computer Science and produced two new courses, CS 220 and CS 230. These courses have been approved by the department, division and finally the Curriculum and Instruction Committee in an effort to make the articulation and transfer as simple and painless as possible for students.
- Class visits to all higher level math classes at IVC were made in October, including a presentation on the Computer Science 2+2 program and the scholarship opportunities available for Fall 2008 transfers.
- Scholarship information for Fall 2008 Computer Science transfers has been finalized with the scholarships going to the top ten applicants based on GPA and course completion. Dean Roeder was extremely flexible and generous regarding this opportunity and worked with IVC to make the opportunity available to a maximum number of applicants.
- The Computer Science major at SDSU-IV was not visible in the online application form before it was approved by the Chancellor’s Office. Counselors worked with some students who were confused and/or distressed about this situation. The back-up application plans were developed, such as students applying as undeclared majors, and filing a change of major once they are in the system and the major is in the system, and SDSU-IV will process the applications to the computer-science program as needed. The Chancellor’s Office approved the BA degree in Computer Science at SDSU-IV and the major was opened up for application.
Nursing Program
- Articulation of a 4-unit CHEM 140, Integrated Chemistry, with SDSU has been denied for a second time. SDSU is using a 5-unit course to satisfy BSN admissions. IVC has created a 5-unit new course, CHEM 160, to articulate to SDSU’s course. CHEM 160 has been approved by the department, division and Curriculum and Instruction and will be offered as SPEC course for Spring 2008 and formally included in the 2008-2009 catalog.
- The management team is working with SDSU School of Nursing to seek a blank petition for 68 students who took CHEM 140 to be able to use this course as the chemistry requirement for BSN.
- IVC is working with nursing administrators at Pioneers Memorial Hospital to discuss the clinical faculty agreements that address clinical faculty in-kind donations to the SDSU-IV program.
- SDSU main campus charged a $161 fee to nursing students at SDSU-IV this semester. Dean Roeder is trying to have it waived.

General
- Conducted Year 2 evaluation. Internal Monitoring Team meeting was held on October 17, 2007. Evaluator David Trujillo was among those in attendance. Enrollment in IVC’s computer science courses is 41 and 68 for CHEM 140, which is much higher than what we have set up as Year 2 goals of 20 and 35, respectively. Also discussed were the budget and activities at IVC and SDSU-IV.
- Students and staff manned two tables at the College and University Day/Career Fair in which the human mannequin and programmed robots were displayed.

President’s Update
Interim Superintendent/President Gary Rodgers reported the following:

• He is concerned that IVC has not received a draft Accreditation Report. Dr. Darnell had stated the report would be forthcoming in two to three weeks’ time. President Rodgers stated he has called and left messages for Dr. Darnell.
• He remarked on the importance of Prop 92. He stated if the initiative passes, IVC will receive $2.5 million. President Rodgers thanked ASG President David Lopez and CTA President Suzanne Gretz for contributing towards the Initiative. He stated those contributions took IVC out of the zero category and into the middle of the pack for community colleges. He stressed the importance of IVC having its own identity, and competing with UC and SU systems.
• The Focus Group meetings have been successful. A meeting has been scheduled on Tuesday, November 27th, with SDSU transfer students. The meeting with SDSU is new to the vision meetings and will be helpful in determining IVC’s role in the transfer process. Focus Group meetings are scheduled for Calexico on November 29th, and Ocotillo on November 30th. If interested in volunteering, please contact the President’s office.

Vice President for Academic Services Kathy Berry stated IVC received a request for records under the Public Records Act. She personally thanked Institutional Research Analyst Dawn Chun for complying with the request and forwarding the information.

MINUTES FROM STANDING AND AD HOC COMMITTEES

Minutes from the following committee meetings were received:

1. Academic Senate, 10/17/07
2. Curriculum and Instruction, 11/01/07
3. Customer Service Committee, 10/05/07
4. Insurance Committee, 10/08/07, 10/29/07

DISCUSSION AND INFORMATION ITEMS

1. Workplace Appearance

Associate Dean of Human Resources Travis Gregory stated the draft procedure is going through the shared governance process. He would like to have something generic and fair that applies to everyone, and is hoping to get feedback/comments from staff.

A discussion was held regarding the need for such a policy.

Council member Robles voiced her opinion and disagreement with the policy. A motion was made by Member Robles to table the item indefinitely. Second by Carol Cortes-Ramirez.
Vice Chair Heumann noted that the Academic Senate voted not to support any dress code.

Vice President for Academic Services Kathy Berry stated it was premature to act on it, as it needs to go from discussion item to action item.

Council member Robles reiterated that she does not see the purpose for such a policy. She stated she believes the policy would create more problems rather than resolve issues. She stated she believes adult employees are able use their own judgment regarding what is appropriate for the workplace.

Council member Mendez asked if there have been instances where employees are wearing inappropriate clothing.

Associate Dean Gregory stated there have been some issues and gave an example about a student complaint regarding unprofessional attire worn by IVC employees. He stated IVC lacks the tools to try and resolve attire issues. He stated this would be an opportunity for conversation between supervisors and employees regarding what is considered appropriate/inappropriate.

At this point of the discussion Member Robles withdrew her motion, and again expressed her disapproval for the policy.

The discussion continued.

Associate Dean Gregory read the draft procedure aloud.

Vice Chair Heumann noted the reference to Board Policies 7250 and 7260, and inquired as to the content of these policies. Associate Dean Gregory stated he did not have the information available but would send out copies of those referenced board policies.

Associate Dean of Student Affairs Sergio Lopez pointed out that as an institution of higher learning, IVC should project a positive image, guiding, and teaching students to be professional. He stated this is not possible when IVC employees do not have a reference point.

Council member Robles referred to the Code of Ethics Statement wherein a code of conduct is embraced by IVC.

Council member Norma Nuñez stated she supervises classified staff and a problem could arise during a classified employee’s evaluation as to comments regarding appearance, which is on the evaluation.

Chair and Union President Abarca stated there would be a problem.

Council member Armando Mendez stated that from a legal perspective, a policy needs to be in place.

President Rodgers stated that last year a complaint had been filed against an instructor who wore a sleeveless t-shirt and spandex shorts defining genitalia and had body odor. President Rodgers felt uncomfortable approaching the instructor inasmuch as no set policy is in place.
Vice President for Business Services John Lau stated it would be a good policy to endorse. He stated if adopted, it would need to be addressed further as supervisors would be responsible for implementation of the policy. He stated it would be critical that each supervisor hold meetings with staff regarding what is considered appropriate or inappropriate, especially in the departments that have public contact.

Marilyn Boyle noted that the use of perfumes had been taken out of the policy. She believes this is a serious health issue for some and that should be readdressed.

Associate Dean Gregory stated he has received emails regarding the issue of perfumes/colognes. He stated it is a separate issue which is covered under the Americans with Disabilities Act.

2. Naming of the Centennial Pavilion

This item was tabled until the next meeting.

Council member Armando Mendez stated Art Instructor Tom Gilbertson was scheduled to make a short presentation regarding Items 2 and 3, but had to leave due to his next class session beginning.

3. Naming of the new art gallery, “Domingo O. Ulloa Memorial Art Gallery”

This item was tabled until the next meeting.

3. Vice President of Instruction – attended a conference last week on how to be a CIO. For the next 5 years money will be available to the community colleges for basic skills. Every year we have to prove to the chancellor’s office that we deserve more money. Basic skills has to be a campus wide endeavor.

2. STRS – Gretz – The state CTA STRS specialist indicated that other schools on a 16 week calendar with a winter session are having the same problem as IVC. Our name has been added to that list. The problem is being worked on. Another solution discussed was to have a contract day in January.

3. SLO Coordinator – items discussed during the meeting:
   - we are the only without a coordinator
   - division chairs are taking the lead
   - wait for the accreditation report before making a decision
   - when a committee takes leadership of an item it becomes diffused
   - progress is being made
   - the faculty needs to show enthusiasm for SLOs
   - other areas besides instruction are working on SLOs
   - one person needs to be in charge to work with the whole campus
   - there is a concern when a coordinator is appointed, other people tend to think they don’t need to get involved
   - this is not a top down process, it must come from the faculty
   - in a previous meeting the Academic Senate voted to take the lead concerning SLOs

President Seivertson would like all parties to share their information with the senate. He has asked that the division chairs report on their progress concerning SLOs at the next meeting.

III. DISCUSSION ITEMS

A. Title 5 Changes

Kathy Berry shared with the committee the information she obtained from the recent CIO conference regarding the Title 5 revisions. She explained the impact on IVC’s processes, stating that under existing processes when students complete certificates with values of 12 – 17 units IVC transcripts reflect completion of a certificate, which is incorrect according to Title 5. She stressed the need for divisions to review and fix existing certificates, submit them to C&I as new majors, and then submit the new majors to the Chancellor’s Office. Kathy stated the issue is not a catalog issue at this time but anticipates it will become one in 2008 – 2009. She foresees the need for an addendum to the 2008 – 2009 catalog since the major and/or certificate approval paperwork must be submitted to Region X for signatures before submission to the Chancellor’s Office.

B. Curriculum and Instruction – Relationship With SLOs

Kathy Berry explained the need for the college to tie SLO’s to curriculum in a more formal manner; she asked members to keep this in mind when completing the various C & I forms.

III. Evacuation Plan Outcomes/Debriefing meeting update

The evacuation drill evaluations and survey results were reviewed by the committee. Upon review of the data received, the following was recommended:

- Define the responsibilities of faculty during an emergency drill. It was noted that procedures defining roles and responsibilities of Faculty members are not included in the current CTA contract.
- Include a presentation on emergency procedures during staff orientation. In addition, a memorandum explaining the role of public employees in case of an emergency or disaster should be included in the orientation packets.
- Upgrade the current alarm system, not audible in remote areas/buildings (i.e., HR department).
- Committee members recommended scheduling two emergency drills: One at the beginning of the spring semester and the second drill at the beginning of the fall semester, preferably on a Tuesday. ACTION ITEM: Schedule two evacuation drills (Spring/Fall).
- Training should be provided to all staff.
- Evacuation routes not accessible for handicapped people.
The current Evacuation Plan needs to be modified; some evacuation routes are currently obstructed by physical barriers (i.e. a fence obstructing an exit). During a real emergency, those barriers might prevent evacuation of some buildings in a timely and safely manner. **ACTION ITEM**: Rick to bring a draft of the evacuation plan to be reviewed during the next meeting.

- It was recommended to include an evacuation map in the student schedule.
- **ACTION ITEM**: A thank you note should be send to the EMT’s evaluators for their valuable assistance.

III. Benefit Survey Findings: Travis Gregory reported on the results of the benefits survey conducted through “Survey Monkey”. There were 44 responses, and while respondents agreed that benefits were excellent, it appears that there is some confusion regarding the point of contact on benefits questions and more communication regarding benefits is needed. Julie Revoir stated that a workshop on Medicare D is needed to educate retirees.

IV. Wellness: The committee discussed the need for wellness programs or communication regarding wellness for employees. Julie Revoir reported that Blue Cross has a nurse’s line, and WebMD is accessible through the “Personal Choices” web site.

V. Medical, Dental and Vision loss ratios: The committee reviewed the loss ratio reports for the various plans through September 2007:

- Medical: 113.48%, including administration costs
- Prescription: 104.25%
- Dental: 92.81%
- Vision: 92.41%

VI. Timeline for Renewal: The renewal will be received by Keenan in late January or early February. Keenan is forecasting a minimum 25% increase. Julie Revoir stated that prescription drugs are the most expensive part of the program and the biggest factor in the renewal. Also, the premium costs have only increased 5½ % over the last two years, and inflation has caught up with the College’s plan.

VII. Planning for a significant medical renewal: The committee agreed that employees need to understand the cost of insurance and the driving factors, i.e. emergency room use and drug costs. Travis Gregory stated that HR is going to send every employee a total compensation letter.
