

Isolation/Quarantine Decision Tree for Cases and Contacts

*LHJ may conduct further investigation of possible Post-Vaccination Infection (PVI) and report to CDPH or CDC

**Not considered a PVI because they are not fully vaccinated at the time of exposure

Guidance may vary by Local Health Jurisdiction (LHJ) and for healthcare workers and those in congregate settings. Prioritize LHJ recommendations.

1/4/2022

Exposed is defined as being in close contact to someone who tested positive for COVID-19 or shows symptoms.

Close Contact is defined as being within 6 feet of someone for 15 minutes or longer
