My appeal is based on:

- My Imperial Valley College grade point average has improved significantly during the immediately preceding semester: attach your transcript.
- I have documented mitigating circumstances that were beyond my control. Briefly state the mitigating circumstance that impacted your ability to maintain veterans' benefits eligibility. Your explanation must justify why an exception is warranted including demonstration that the problem(s) that caused you to be unsuccessful has been resolved as well as provide evidence that you have made significant changes that will enable you to be academically successful. Attach any supporting documentation (ex. medical reports or court documents).
- My GPA and/or academic progress now meets the districts standards. Provide your transcripts from Imperial Valley College and other accredited institutions (for coursework completed after disqualification).
