RESEARCH CENTER[™]

Institutional Persistence and Retention Report

Fall 2013-2015 Entering Cohorts

IMPERIAL VALLEY COLLEGE

School and Branch Code: 001214-00

NATIONAL STUDENT CLEARINGHOUSE RESEARCH CENTER

2300 Dulles Station Blvd., Suite 300, Herndon, VA 20171

About Your Institution's Persistence and Retention Report

The purpose of this report is to provide you with a view of student retention and persistence rates for your institution. This report is exclusively for your institution's use. The Clearinghouse will not publish or distribute your institution's results.

Data Source

The data for this report were drawn from the Clearinghouse's national coverage of enrollment and awarded education credentials to explore the year-to-year persistence and retention rates of cohorts of first-time-in-college students who started in the fall terms of 2013-2015.

The student outcomes captured in this report are based on student-level data representing an unduplicated headcount of students across all institutions, a feature of the Clearinghouse data sets that distinguishes them from many other data sources, including the Integrated Postsecondary Education Data System (IPEDS), that may not accurately capture the complexity of postsecondary pathways because they are not structured to identify multiple enrollments by individual students. The capability of StudentTracker to link enrollment records across institutions nationally allows researchers to follow students longitudinally as they move from institution to institution, producing a fuller picture of college persistence and completion.

The Definitions and Methodology section at the end addresses cohort selection and terminology. Additional questions or feedback can be sent to nscresearch@studentclearinghouse.org.

	Retention Rate	43.6%
	Total Students	385,782

See Footnote 3: Retention: By Race/Ethnicity on page 11.

Footnote Appendix

Footnote 1: Starting Enrollment Intensity

For the 2013 and 2014 cohorts, non-degree-seeking students were included in the full-time and part-time categories. Beginning with the 2015 cohort, non-degree-seeking students were reported in a separate category and are not included in this report. Therefore, for the 2015 cohort, the sum of full-time and part-time students may not sum to the overall cohort count.

Footnote 2: Persistence: By Race/Ethnicity

The 'Other' race/ethnicity category includes students who were reported as non-resident alien, American Indian or Alaskan native, Pacific Islander, or Native Hawaiian or other Pacific Islander. The 'Race/Ethnicity Unknown or Missing' category includes students whose race was reported as Unknown as well as students for whom no race/ethnicity value was provided.

In the graphs, every race/ethnicity category is represented although the marker for every category may not be visually distinguishable. This is because, in some cases, the values for 2 race/ethnicity categories are almost identical and their markers are the same shape. In these situations, one marker may be hidden behind another. This gives the appearance of a missing race/ethnicity category in the graph.

Footnote 3: Retention: By Race/Ethnicity

Counts for students whose Race/Ethnicity was reported as non-resident alien, American Indian/Alaskan native, Pacific Islander, or native Hawaiian/other Pacific Islander have been rolled up into the 'Other' category. Counts for students who were reported as race Unknown or whose race was missing have been classified as 'Race/Ethnicity Unknown or Missing'.

Definitions and Methodology

Fall Enrollment

A student is counted as having been enrolled in the fall if they were enrolled for any length of time in a term that began between August 1 and October 31, inclusive.

Retention

Defined in this report as continued enrollment (or degree completion) within the same higher education institution in the fall semesters of a student's first and second year.

Persistence

Defined in this report as continued enrollment (or degree completion) at any higher education institution - including one different from the institution of initial enrollment - in the fall semesters of a student's first and second year.

Enrollment Intensity

A student is classified as having started college in a full-time or part-time status based on their earliest reported enrollment intensity within the entering fall term. The part-time group comprises three-quarter-time, half-time and less-than-half-time students. For the 2013 and 2014 cohorts, the full-time and part-time categories included non-degree-seeking students. Beginning with the 2015 cohort, non-degree-seeking students were reported in a separate category and are not included in this report. Therefore, for the 2015 cohort, the sum of full-time and part-time students will not sum to the overall cohort count.

First-Time Status

This report uses historical Clearinghouse enrollment and degree data to confirm that students included in the study (1) showed no previous college enrollment in the four years prior to the entering cohort year and (2) had not previously completed a college degree. In order to reliably identify students with prior enrollments, this report is limited to institutions that began submitting enrollment data to the Clearinghouse for terms beginning on or before June 1, 2009.

Degree-Seeking Status

The retention rates reported by IPEDS are limited to degree-seeking students. This report differs in that it includes all entering students, including non-degree-seeking students, for the 2013 and 2014 cohorts. Beginning with the 2015 cohort, non-degree-seeking students were reported in a separate category and are not included in this report.

Former Dual Enrollment Students

The cohorts used in this study include former dual enrollment students: first-time college students who had taken college courses prior to graduating from high school. Students were identified as former dual enrollment students if they were under 18 years of age during any enrollments that occurred prior to the cohort year.

Race/Ethnicity

For information on how a student's race/ethnicity was classified, see Appendix A of the most recent Signature Completions Report Supplement found here: [NSC RC Completions Report Supplement by Race/Ethnicity](#)

The race/ethnicity categories included in this report are White Non-Hispanic, Black Non-Hispanic, Asian, Hispanic, Two or More Races, Other Races (includes non-resident alien, American Indian/Alaskan native, Pacific Islander, native Hawaiian or other Pacific Islander) and Unknown.
