

You can usually look up your student email address over here if you don't know it already:

<https://www.imperial.edu/students/student-email-lookup/>

And if you have your current WebSTAR password, you should be able to login over

at <https://outlook.imperial.edu>

Once logged in, you can check your forwarding settings on this page I believe (which could allow an extra copy of your emails to be sent to another email account if you wish):

<https://outlook.office.com/owa/?path=/options/forwarding>

If you already know your email address and are having issues with the password, the password should be the same one you use to get in to WebSTAR. If you are still having issues, it might be best to contact Admissions and Records at 760-355-6101 to reset your password.
