Discussion:

Daniel Gilison – no problem approving motion, but thought SLO's did not need approval.

Kathy Berry – to clarify, we are just approving the addition of them.

Bruce Seivertson – may need to clarify the motion to say addition.

Discussion continued to clarify how the motion to include SLO's should be written.

Discussion:

Brian McNeece – asked what the term of the grant is.

Kathy Berry – approximately 2 years, then it would continue if funds were still available.

Jan Magno – would this be financial aid eligible?

Kathy Berry – clarification could be provided by Efrain Silva. This would need to be grant funded as the district cannot afford to fund this program.

Jan Magno – will prepare to provide financial aid eligibility for the program and can remove it if it is not approved.

C. SB 1440 and Institutional Requirements under General Education

- David Drury – Requested point of clarification prior to motions. Questions – Why are we rushing to change our institutional requirements under GE?
- Krista Byrd – there is not rush but the conversation came up regarding the TMC and the need to move forward with process.
- David Drury – the students on the TMC are on a different track so we should not need to change our overall institutional requirements. Is concerned that this is not an indication of discussion as it is an action item at this meeting. Understands that changes need to be made but should not be rushed.
- James Patterson – set up a virtual dialogue but received little dialogue, therefore it was submitted as an action item.

Members agreed that as an option for motions, they can be tabled.

- David Drury – for the current degrees our institutional requirements are tailored to our community and to best serve our students. Just questioning the rush. Would motion to table these items at this time.
- Carol Lee – if we removed all of our institutional requirements this would impact all the Vocational Education majors on campus. Ex: no RN major would need the American Institutions requirements, those are the 12 units not mandated by Title 5.
- Kathy Berry – we need to have a very involved discussion about the requirements.
- Carol Lee – there may be confusion, IVC’s majors are good, 1440 has been implemented and students will need to complete the CSU GE certification or IGETC and you cannot hold them to any campus institutional requirements. This is for AA-T and AS-T majors. CSU’s do not require PE, the 3 units are transferable but they are elective units.
- James Patterson – regarding our “pink sheet”, are we going to need a new sheet for the TMC majors.
- Carol Lee – we are waiting for the information from the State. Students will need to complete the CSU GE or the IGETC.
- Suzanne Gretz – regarding the American History under American Institutions, if it is eliminated from Institutional requirements we now are going to have students who have received a degree that is not a transfer degree they would have to come back and take the classes in order to be eligible for transfer, and is it appropriate to have students who receive a degree does not have to take any classes in American History or the Politics of Government in this country. We would create two groups who have different requirements.
- Kathy Berry – suggested Academic Senate also discuss this issue.

M/S/C Seivertson/Heumann to table the following motions. *The motion carried.*

M/S to eliminate the Institutional Requirement for American Institutions, Section A., Political Science 102 AND One course selected from: History 120 OR History 121. **The motion was tabled.**

III. Discussion Items

A. Prerequisites Webinar

- Bruce Seivertson – has started gathering information from his department.
- James Patterson – statement was made that even if a discipline is going with content review to establish prerequisites the establishment of need for the prerequisite still needs to be statistical.

B. SAM Code (CB09)

- Kathy Berry will be meeting with the Enrollment Management team. There is a problem with some of the SAM codes for some of our courses. Work with Dixie to correct discrepancies.
